

INSPECTORS REPORT WAINWRIGHT SCHOOL FAIR IS BEST YET

The judges at the school fair were unanimous in their report that this was the best yet.

SEWING

Cleaning Mitt—Maud Beckett, Wainwright A. 1; Edna Riech, Wainwright A. 2; D. Wilkins, Wainwright A. 3; M. Shelton, Wainwright A. 4; D. Tansley, Wainwright A. 5.

Slip-over Apron—M. E. Egan, House Lake 1; R. McLeod, Wainwright B. 2; J. Forster, Wainwright A. 3; M. Beckett, Wainwright C. 4; M. E. Egan, Wainwright C. 5.

Quilting on Cotton—J. Sargeant, House Lake 1; M. Perkins, Trafalgar 2; E. Perkins, Trafalgar 3; M. Sargeant, House Lake 4; L. Bloom, Wainwright C. 5.

Crochet Edging—J. Sargeant, House Lake 1; E. Perkins, Trafalgar 2.

Bottonholes—M. Perkins, Trafalgar 1; E. Perkins, Trafalgar 2.

ART & MANUAL ARTS

Grade I.

Landscapes—M. Rinas, Ascot 1; A. McQuaker, Ascot 2; G. Barton, Wainwright A. 3; O. Alexander, Ascot 4; G. Ebbert, Ascot 5.

Plasticine—J. Lake, Wainwright A. 1; G. Barton, Wainwright A. 2; R. Hamilton, Wainwright A. 3; C. Stintner, Wainwright A. 4; C. Sargeant, House Lake 5.

Surface Patterns—M. Burnett, Wainwright A. 1; E. Gano, Wainwright A. 2; J. V. Indium, Wainwright A. 3; M. Rinas, Ascot 4; M. Shelton, Wainwright A. 5.

Pose Drawing—A. Rinas, Ascot 1; G. Ebbert, Ascot 2; M. Rinas, Ascot 3; A. McQuaker, Ascot 4; O. Alexander, Ascot 5.

Grade II.

Landscapes—J. Alexander, Ascot 1; M. Ebbert, Ascot 2.

Plasticine—J. Lake, Wainwright A. 1; G. Barton, Wainwright A. 2; C. Bishop, Wainwright A. 3; J. Forsyth, Wainwright A. 4; I. Sargeant, House Lake 5.

Surface Pattern—J. Reich, Wainwright A. 1; B. Forsyth, Wainwright A. 2.

Pose Drawing—M. Ebbert, Ascot 1; V. Muncaster, Holmstead 2; R. Alexander, Ascot 3.

Grades III & IV.

Wainwright A. 1; M. Haire, Wainwright A. 2; J. Davidson, Wainwright A. 3; Chee, Wainwright A. 4.

Plasticine—J. Davidson, Wainwright A. 1; N. Gordon, Wainwright A. 2; W. Bishop, Wainwright A. 3; A. Dahlgren, Wainwright A. 4; G. Laderoute, Wainwright A. 5.

Surface Pattern—C. Cooper, Wainwright A. 1; M. Haire, Wainwright A. 2; P. Stuart, Wainwright A. 3; G. Laderoute, Wainwright A. 4; V. Walton, Wainwright A. 5.

Pose Drawing—N. Gordon, Wainwright A. 1; O. Chee, Wainwright A. 2; M. Perkins, Trafalgar 3; B. Babb, Plaxtonville 4; G. Ebbert, Ascot 5.

Grades V and VI.

Woodwork—J. Laderoute, Wainwright B. 1; A. Wermund, Wainwright B. 2; C. Aykroyd, Wainwright B. 3.

Woodwork—M. Steele, Wainwright C. 1.

Landscapes—M. Steele, Wainwright C. 1; M. Aldridge, Ascot 2; J. McQuaker, Ascot 3; A. 2; J. McQuaker, Ascot 3; A. Wermund, Wainwright B. 4.

Grade VII & VIII.

Basket (raffia or willow)—H. Merrick, Sydenham 1.

Woodwork—E. Merrick, Wainwright D. 2.

Landscapes—A. Alexander, Ascot 1; L. Bloom, Wainwright C. 2; R. Buchanan, Wainwright D. 3; P. Olson, Wainwright D. 4; M. Sargeant, House Lake 5.

Collection of Class Exercises—A. Alexander, Ascot 1; H. Merrick, Sydenham 2; M. Steele, Wainwright C. 3; G. Olson, Wainwright D. 4.

PENMANSHIP

Grade I.

A. McQuaker, Ascot 1; F. Daniels, J. Mills, Wainwright A. 4; Wainwright A. 2; M. Rinas, Ascot 3; Wainwright A. 3; B. Babb, Plaxtonville 5.

Grade II.

E. Cooper, Wainwright A. 1; E. Forster, Wainwright A. 2; R. Alexander, Ascot 3; J. Forsyth, Wainwright A. 4; M. Ebbert, Ascot 5.

Grades III and IV.

A. McQuaker, Ascot 1; G. Ebbert, Ascot 2.

STETTLER SPEAKER FILLS LOCAL PULPIT

Owing to the illness of the pastor, Rev. H. Bosomworth, the pulpit of Grace church was filled on Sunday evening last by Mr. L. Stetler, of Lakeside, near Stettler. The visitor was staying over with his uncle at Grangeville, on his way to university in the east, and hearing of Mr. Bosomworth's indisposition kindly consented to fill the pulpit there in the morning and in town in the evening. He is a capable and interesting speaker and his services were much appreciated by good congregations.

ALBERTA EXPORT LIQUOR HOUSES CLOSE IN MARCH

One more week in the distribution of liquor in the province will be stopped next March when all the export liquor warehouses will be closed. Some four or five have voluntarily shut up shops, and the remaining eight will be closed on that date by order-in-council.

At the last session of parliament, legislation was passed enabling the province to cut out the export houses by order in council. As the licenses were paid up to next March, it was decided by the provincial government to allow them to do business until their licenses expired and also give them an opportunity to dispose of their old stocks.

Delegations from the export houses have waited on the Attorney General or Alberta asking to have the time extended, but it is the intention of the government to pass the order-in-council this fall and give the exporters plenty of time to wind up their business.

Alberta and Saskatchewan are working fairly closely together in this business and it is probable that the Saskatchewan government will take similar action at about the same time as the Alberta order comes into effect.

MAX UHLICK IS BADLY INJURED WHEN HAY RACK SPILLS

Last Wednesday when Mr. Max Uhllick was driving home with a load of hay some miles northwest of town he had the misfortune to encounter a bad spill on a sharp grade with the result that he was practically buried under the hay in the ditch at the side of the grade.

The ditch which is fed by a spring contained a quantity of water, and it was in this that the injured man was found by neighbors who passed shortly after the accident.

Dr. Middlemass was sent for and after local treatment the sufferer was taken to the hospital in Edmonton where latest reports say he is now progressing favorably.

Two Popular Young People Go To Altar HAM-SPRINGER

A pretty little wedding was solemnized at the home of the bride's parents on Wednesday last at 4:30 p.m., when Louisa Margaret, the third daughter of Mr. and Mrs. P. Springer, was united in marriage to Mr. Charles Franklyn Ham, a former member of the staff of the Merchants bank in town.

The bride was attended by her sister, Miss Gertrude Springer, and was given in marriage by her father. Mr. Harry Morris attended the bride.

The ceremony was performed by the Rev. S. Davies in the presence of immediate relatives and a few friends, after which wedding repast was served.

The happy couple left on the evening train, travelling over the Canadian National to spend their honeymoon at Raymond, West where they will place their wedding home.

Both parties are well-known in the young people of town and the Star extends the best wishes of a host of friends for a long and happy married life.

RALLY DAY IS OBSERVED BY LOCAL CHURCHES

The "rally day" services of Grace church saw a good attendance in all departments. The programme outlined by the Department of Sunday schools of the Methodist church was augmented by the efforts of various classes and was under the direction of Miss H. Torry.

Each class gave a report of its own attendance and collections, and an outline of its ideals, after which the Loyal Daughters, and the primary classes each gave a vocal selection.

Recitations were also given by Edith and Margaret Steel, and Lilian Bloom sang a solo. Mrs. C. Love, who has been acting superintendent for some weeks gave a suitable address and then called upon Mr. J. Madder who has been absent for a couple of months. He was received with enthusiasm and gave an interesting talk on the church and school life of Winnipeg. The school looks forward to a fall and winter work of enthusiasm and usefulness.

At St. Andrew's church also a morning service was comprised of a rally day programme and special musical numbers and order of service was rendered by the juvenile choir, acquiring themselves creditably. The topic of the address was also in keeping with the occasion.

We understand that until further notice, the pictures will be shown at the Elite on Fridays and Saturdays only. Each Wednesday while the pictures will be given commencing at 9 p.m.

WINTER QUESTION OF VEGETABLE STORAGE NOT UNDERSTOOD

Winter storage of vegetables is an old question often discussed but apparently not well understood. To store the crop seems a comparatively easy task, but to guard against heavy loss while in storage is sometimes quite a problem even for the most experienced of growers.

Some of the first and most important factors influencing the keeping of vegetables in storage are to see that they are free from all disease, well grown, fully matured and free from injuries such as bruises caused by careless handling at harvest time. If these important points are kept in mind at the time of selecting the material for storage, much worry and loss in dollars and cents will be avoided later on.

For the storage of such crops as beets, carrots, potatoes, cabbage, celery, parsnips and turnips a properly constructed cellar is desirable and should be available; with adequate ventilation to keep the temperature as constant as possible around 56 degrees at all times during the storage period. By no means should a storage cellar become excessively damp, for this will favor the development of many of the common diseases attacking vegetables in storage, and more especially when in warm or ill-ventilated cellars. Moderate sized, slatted bins or crates should be used for the storage of roots or potatoes, while cabbage can be stored on shelves or in bins.

Celery is usually stored in the roof cellar. The plants are stripped of all rough leaves and placed in an upright position on moist sand, more sand being placed in and around the roots. Where a basement is available and only a small quantity of vegetables are to be stored for household use a compartment should be provided in the basement so as to exclude the heat from the furnace and with suitable vents for ventilation. A good earthen floor is preferable to one of cement.

A dry, cool, dark room at a temperature of about 34 degrees is the best for storing onions, unless the cellar is dry and cool it is not suitable for this crop. Squash and melons require a moderate warm room, and very careful handling is necessary if they are to be kept for any length of time.

The Atlas Lumber Co. are unloading several cars of Black Diamond this week.

LETTERS TO THE EDITOR

We are not responsible for opinions expressed by correspondents.

THE ELECTRIC LIGHT

The Rev. Henry Wilson, of St. Thomas' church, writing under date of September 25th, says:—Three Sundays out of six no light in our churches for our Sunday night services!

Are the churches never to be considered? Is there no remedy for this deplorable state of things which now has become an annual occurrence? I refrain from further comment though I would be utterly justified in doing so.

[The installation of the new boiler and generator at the power house, which work is now under advisement by the Fire, Water and Light committee of the Town Council, it is hoped will obviate the necessity of further "shut downs" in the future.—Ed.]

EFFORTS OF THE PRES. LADIES AID NET BIG RESULTS

On Saturday last the ladies of St. Andrew's church were out to excel themselves, and they sure accomplished that difficult task. A big feed by any of the church ladies of our town is always looked eagerly forward to and patronised in a fitting manner, and the response made by the public to the claims of the ladies on Saturday was as usual a large and generous one, the net proceeds totalling around \$87.

At the noon hour a regular "Boston Baked Beans" dinner was served with all the trimmings, while at 6 o'clock a delicious chicken supper was the big excitement.

Too much praise cannot be given to all the ladies who worked so hard to secure such happy results to their day's labors.

THANKSGIVING DAY SET FOR NOVEMBER 6th

Advices from Ottawa say that Thanksgiving Day is to be observed on Monday, November 6th this year.

The date was fixed by parliament at the 1921 session being arranged so as to fall on the Monday of the week in which is Armistice Day, November 11th.

LOCAL NOTES

Mr. C. Steen has returned to his home in the east.

In the wind-up of threshing on the farm of Mr. Hartman Mills it was found that 80 acres of wheat averaged just over 20 bushel per acre.

A meeting of the local G.W.V.A. is called for Saturday evening next in the town hall at 8 p.m. A good muster is hoped for.

Last Sunday was such a glorious day that many summer campers ran down to their cottages for a day by the briny.

Mr. and Mrs. S. Betts motored down from the city last week end and spent a day or two with relatives and friends.

Capt. Gardner of the S.A. was in charge of the service at Trafalgar on Sunday last owing to the sickness of Mr. Bosomworth.

Be safe and careful; protect your life's earnings and your property by a fire insurance policy. See Joe Welch.

Miss M. Coleman has left to attend to her millinery business at several C.P.R. points.

IN MEMORIAM

In loving memory of Arthur Leggett, who died at his home near Edmonton on September 15, 1918.

Till morning's joy shall end the night
And life's long shadows break in
cloudless love

NO MORATORIUM IN ALBERTA NOW SAYS COM. FREAM

There will be no moratorium in Alberta. This was the very definite statement of E. J. Fream, commissioner under the Drought Relief Act, when the question was put to him.

"I do not think the matter has even been considered by the government at all," he remarked and I am sure there is no necessity for it. It would certainly injure the credit of the province not only so far as farmers are concerned, but every other class of business."

Mr. Fream stated that the Drought Relief Act had been confused by some to be a moratorium. The difference between the act and a moratorium was that it was now necessary to get the permission of a judge to start or continue an action, whereas before it was possible to start an action and carry it right through to execution and seizure before getting the permission of the judge to sell under the seizure. Now permission had to be obtained before starting an action.

"There is no doubt in the past," said Mr. Fream, that there have been cases where action has been considered and execution incurred in securing judgment and execution only to find out that the man had nothing to collect upon. It is thought the present plan will obviate considerable trouble and expense, because if a man has nothing it is useless throwing good money after bad at the present time. A moratorium might have been all right during the war," he said, "but there is no necessity for it now."

LOCAL OIL CO. GETS PERMISSION TO SELL SHARES

News was received in town on Monday by the officers of the Wainwright Oil Development Co. that the Board of Public Utilities had granted them permission to place some \$300,000 worth of oil shares on the open market.

This stock will be sold for the purpose of further development of the well; where indications, according to the drillers are most promising. They are now down in the neighborhood of two hundred feet, and the formation is following very closely the strata of the Fabyan oil producer sunk by the Imperial company.

Tonight a directors' meeting is to be held in the town hall and at this gathering all shareholders are invited to be present, and a campaign for placing the share issue on the market is to be outlined.

The prospectus of the company is being drawn up, and will be issued to the public within a few days.

With regard to the erection of the big derricks with which British Petroleum Limited propose to drill, the huge timber for these structures are now here, and the location will be given out in a day or so. So far the location has been a strict secret, but it is loudly rumored that one site at least will be just north of town while the other will possibly be between Wainwright and Fabyan, probably about three miles from town. We understand that the Oil and Gas Seekers, a drilling concern of Minneapolis, have now signed a contract to bore a hole for Edmonton and Calgary capitalists about eight miles north and four miles east, some where along the river. Nothing more can be gleaned as to the location of well No. 2, which the Imperial company have stated they are all ready to proceed with as soon as they can bring in another drill.

Petroleum leases cancelled by the federal government for various reasons were put up for public auction in the Edmonton land-office on Friday afternoon and disposed of by auction.

In all, 680 acres of leases were sold, these being located in the Wainwright-Irma oil field. Seven lease-holders were received, the leases being disposed of in parcels of 40 acres.

W.I. HOLDS REGULAR MONTHLY MEETING

The regular monthly meeting of the W.I. was held on September 16th at the home of Mrs. J. McDermas, when Mrs. A. Robinson and Mrs. J. Chynoweth gave their report as delegates to the convention at Calgary and Mrs. J. Lassell reported on the work being accomplished at the ceremony.

Mrs. Morrison of Greenshield, gave a very interesting paper on "What shall we teach our children before they go to school?" after which Messrs. Michon, Lassell and Steel served a dainty lunch. The next meeting will be held on Oct. 14th.

HAIL INSURANCE BOARD FIXES NEW ASSESSMENT RATE

At the meeting of the Hail Insurance Board of Alberta held on Friday in Calgary, the rate of assessment for hail insurance for 1922 was at five per cent.

The co-operative plan of protection against hail loss, as offered under the Municipal Hail Insurance Act, is evidently meeting with the approval of the farmers of the province. The saving to them in premium, covering the four years the act has been in operation, amounts to almost one and a half million dollars, and in addition to this a reserve of approximately a half million dollars has been established.

The volume of insurance written in 1922 was not quite as great as that of previous years, due to adverse crop conditions and lower grain prices and doubtless also to the higher rate the board found it necessary to set in 1921.

But the figures, quotes, prove beyond a doubt that the co-operative system, embodied in the Municipal Hail Insurance plan, well deserves the slogan "The cheapest safe insurance."

PUCK CHASERS NOW GETTING BUSY FOR COMING SEASON

Only a small attendance was on hand last week for the annual meeting of the hockey club but those who gathered were all live enthusiasts.

A general discussion of the affairs of the organization the officers were elected for the ensuing year as follows:—

Pres.—R. G. Dunsmore
Sec.—Treas.—E. Frickelton
Manager.—E. L. Cork

A canvassing committee consisting of Messrs. Washburn, Gerow and Wallace was appointed, this body to act in conjunction with the officers of the club in the apathy of a finance committee.

Before adjourning, a vote of thanks was tendered to the retiring officers.

Alberta Frost Free Periods Compiled

At this season of the year, when the first frosts are putting the autumn tints on the trees, it might be interesting to know something about the frost-free periods in Alberta.

From the records of the Department of Agriculture, which cover a number of years. Commencing at Medicine Hat in the south we find that over a period of 37 years that town had an average of 119 days frost free, with 146 days in 1914 as the longest and 88 days in 1912 as the shortest in any one year.

At Calgary, over a 38-year period, the average has been 81 days without frost with 129 days in the year 1913 as the longest year. At Edmonton during a 39-year period the average gave 90 days in the year free from frost, the year 1906 being the best with 118 days free.

In high northern territories, the average is very much shorter for Fort Vermilion under the Arctic circle only 55 days per year have been free from frost on an average of 17 years.

FULL LIST OF PRIZE WINNERS AT EDGEMONT FAIR

The following is a list of the prize winners at the Edmonton fair held over last week:

The Diploma presented by the Department of Agriculture of Alberta to the school having the best exhibit at the Edmonton School District No. 2044, though the competition was most keen, the Junior room and McCaffrey School District coming closely behind.

The following schools were included in the district: McCaffrey, Delroy, Aspen, Bloomington Valley, Saddle Hill, Silgo, Empire, Battle Valley, Prospect Valley, Edgerton Senior Room, and Edgerton Junior Room.

In order that soil conditions might be equalized as much as possible, in some classes two schools were paired and the number of prizes in those classes was increased; this is a commendable way of overcoming certain difficulties.

The following is a complete list of the winners:

Paranish, 1 L. Challenger; 2 E. McFarland; 3 V. Walrath; 4 V. Davis; 5 G. Miles.

Carrots A. 1 E. Spencer; 2 P. Martindale; 3 B. Lees; 4 A. Hoehn; 5 H. Carney.

Carrots B. 1 A. Walrath; 2 V. Walrath; 3 P. Challenger; 4 V. Davis; 5 H. Kelley.

Carrots C. 1 V. Avision; 2 E. Reynolds; 3 E. McCormick; 4 K. Reynolds.

Carrots D. 1 E. Perkins; 2 V. Van Velder; 3 E. Perkins; 4 V. Walrath; 5 C. Spornitz.

Beets A. 1 V. Avision; 2 J. McCormick; 3 K. Reynolds; 4 D. Reynolds.

Beets B. 1 E. Perkins; 2 V. Van Velder; 3 M. Trautman.

Beets C. 1 M. Mitchell; 2 N. Pickard; 3 V. Raimy; 4 B. Johnson; 5 G. Johnson.

Turnips A. 1 B. Lees; 2 M. Hoehn; 3 P. Martindale; 4 E. Spencer; 5 R. Ferris.

Turnips B. 1 V. Walrath; 2 A. Walrath; 3 E. Challenger; 4 H. Kelley; 5 M. Martindale.

Turnips C. 1 E. McCormick; 2 P. Martindale; 3 M. Trautman.

Turnips D. 1 R. Kelley; 2 N. Pickard; 3 V. Raimy; 4 L. Woodruff; 5 A. Swanson.

Potatoes 1 P. Perkins; 2 E. Perkins; 3 A. Hoehn; 4 G. Perkins; 5 P. Martindale.

Peas 1 V. Van Velder; 2 N. Pickard; 3 P. Spornitz; 4 C. Spornitz; 5 C. Spornitz.

Threshed Oats 1 R. Ferris; 2 G. Perkins; 3 H. Walrath; 4 V. Avision; 5 P. L. Woodruff.

Threshed Barley 1 L. Woodruff; 2 H. Kelley; 3 J. P. Miles; 4 L. Miles.

Threshed Rye 1 J. Millard; 2 K. Challenger; 3 D. Evans; 4 H. Johnson; 5 E. Russell.

Plain Cake 1 J. Sawyer; 2 J. Millard; 3 E. Spencer; 4 E. Russell; 5 E. Nichol.

Baking Powder Biscuits 1 L. N. Pickard; 2 H. Hallett; 3 P. Miles; 4 V. Van Velder; 5 H. Kelley.

Chocolate Blanc Mince 1 H. Redmond; 2 H. Hallett; 3 H. Kelley; 4 E. Evans; 5 P. Miles.

Drop Cakes 1 H. Hallett; 2 M. McCormick; 3 E. McFarland; 4 P. Miles; 5 L. Woodruff.

Pickles 1 E. Ayres; 2 P. Challenger; 3 V. Raimy; 4 B. Johnson; 5 R. Johnson.

Bread 1 B. Johnson; 2 R. Johnson; 3 G. Johnson; 4 A. Jardine; 5 C. Johnson.

Continued on page 6

CONQUER WEAKNESS

by keeping your powers of resistance at highest peak. It is as natural for

Scott's Emulsion to strengthen as it is for your food to nourish the body. If you would conquer weakness—increase your resistance—take Scott's Emulsion often.

Scott & Borne, Toronto, Ont.

WORLD HAPPENINGS BRIEFLY TOLD

Thirteen stole over \$540 worth of platinum while they were heated in crucibles over a furnace in a temporarily vacant Paris laboratory.

Tommy "Fowler" Tucker, 15, amateur flyer, and Archie J. Stowell, 25, professional aviator, were "fatally" killed when their plane, piloted by Stowell, fell 350 feet near Tulsa, Okla.

The Soviets have sold Germany some 30 warships as old iron, according to advices from Russia. They include the Admiral Makarov and the Grombol.

The death of Henri Vignaud, Honorary Counselor for the United States Embassy and Dean of the Diplomatic Corps, was announced by the Paris Herald.

King Albert of the Belgians has accepted an invitation to take part in New York in 1924 in the third century anniversary of the founding of that city.

A floating mine of German construction has been discovered by the fishermen of Antwerp right across the route of the steamers plying between Marseilles and Nice.

Lord Reading, the Viceroy of India, sent to the Dalai Lama over the new telegraph line to Tibet, recently opened, the King's thanks for his friendly greetings.

The Government of New South Wales has agreed in principle to the immigration scheme under which the Commonwealth and New South Wales and Great Britain each pay one-third of the cost of taking out land settlers.

The Combined Court of British Guiana has, by resolution, authorized the Colonial Government to take over and maintain the wireless station established in the colony by the Admiralty some years ago.

There is coal at Gros Cap, eleven miles from Saint St. Marie. Seven pieces were brought to the Sault and placed on exhibition by Charles O'Connor, who has staked out a claim in the Gros Cap field.

George Salem, an Egyptian student, fired a shot at an automobile in front of the Palace of the Elisee, Paris, heaving the car to be President Millerand's. The shot went wild. President Millerand was at his country residence at Rambouillet at the time.

The Ford Automobile Company has bought a large tract of land on the outskirts of Antwerp, where an assembling plant will be erected, the plant will be ready for operation early next year. Automobile parts will be sent from Detroit to Brussels and the cars assembled there.

Sir Lee Stack, the Governor-General of the Sudan, has been negotiating in London for further financial support for Sudan irrigation schemes. It is understood that matters have been so arranged that it will be possible to resume during the autumn, work on the Blue Nile dam, Wukwar, which was suspended last winter.

A proposal is made to establish an aerial line of communication between Tulle, on the South-West Madagascar coast, and Antsahabe, in the interior, which is shortly to be in railway communication with Antananarivo. The line will reduce to two days a journey which at present takes one month.

Short Crop in France

Whole Wheat Bread to Replace the White Loaf

Whole wheat bread will replace throughout France the pure white loaves and rolls that since the war have received such a warm welcome. This is due directly to the fact that this year's harvest in France is estimated much below the yield of last year, when there was a bumper crop of 88,000,000 quintals.

It is feared that before the 1923 wheat crop can be reaped the country will have to buy some 20,000,000 quintals of foreign grown wheat to meet the requirements of the population.

Unit to Live—Must Die

This verdict is rendered in thousands times every week—no corn can live. It must pass out, drop off. If Putnam's Extract is applied to corns and warts, the corns and warts "die." It never fails, 25c at all dealers.

Great Strength in Tiny Bodies

Lifting Powers of Certain Insects Compared With Man

Probably the most wonderful feature of a mosquito is its muscularity. This may seem a ludicrous statement, but a great surprise waits anyone who for the first time examines one of these insects under a glass. Size for size, a mosquito's wing muscles are equal to an eagle's. Even on a calm day, a mosquito can fly forty or fifty miles without a halt; and with a helping wind, three times this distance!

The ordinary housefly, too, has astonishing "wing strength," tests have shown that when it desires really to hurry it can "dash" 160 feet in a second—110 miles an hour straight-away.

Imagine a man who could lift 73,000 pounds! He would have all known "strong men" of past and present beaten so far that comparisons would be ridiculous. But that is what our average man could lift were he as strong in proportion to his size as a crab; a weight 490 times its own is just a good average lift for a crab!

The muscles of a large oyster, too, will support a weight of thirty-seven pounds. Imagine a man who could lift 73,000 pounds! He would have all known "strong men" of past and present beaten so far that comparisons would be ridiculous. But that is what our average man could lift were he as strong in proportion to his size as a crab; a weight 490 times its own is just a good average lift for a crab!

A Belgian scientist found that a bee, weight for weight, was thirty times as strong as a horse. It has been found that an ordinary housefly can lift a matchstick and that in doing so it exerts as much power in proportion to its size as a man when he holds aloft on his feet a beam four feet long by thirty inches square. Even a very small bug can drag six matches—the equivalent to a man's pulling 330 pounds as large as himself.

Spiders sometimes exhibit wonderful strength, especially in conflict. There is a spider in Java that is the dread of all other insects; it makes a web that can hardly be cut with a knife! With spiders size is not always a measure of strength; but this fellow has both bulk and power.

One writer states that an ordinary ant can carry ten times its own weight. Personally, I have seen them do far more than this.—J. E. Eubanks.

Old Hundredth

"Old Hundredth" has been variously described to Martin Luther, Dr. J. P. Dowland and William Frank. Dr. Lowell Mason wrote quite a treatise on the old tune in 1852, saying emphatically it was written by Guillaume (William) Frank in 1525. But late musical historians and antiquarians who have investigated more closely say it was composed by Louis Bourgeois, born about 1500 and died about 1575—some say in the massacre of St. Bartholomew, in 1572-73.

The electric eel, found in Brazil and Guiana, can administer quite a severe electric shock. Sometimes strong enough to overcome a horse.

A man of seventy has renewed his finger nails 118 times and has grown one again on each finger.

A Good Teacher

Value of Serving Hot Lunches in Schools

Experience has shown that where hot lunches have been introduced into schools, there has been better attendance on the part of the children because of their better physical condition. There have been fewer failures, and the average class grades have been higher. The money spent on the reduction of backward children might far better be spent in making possible the hot school lunch.

Mental efficiency is dependent upon physical well-being. A child's brain cannot work if it is not supplied with the proper food. A tired, inactive child has a tired, inactive brain.—From The American City.

The signs of weak, watery blood are unmistakable. The pale, irritable girl or boy, who has no appetite or ambition, is always tired out, short of breath and does not grow strong, is a victim of anaemia—the greatest enemy of youth. There is just one thing to do for these girls and boys—build up the blood with Dr. Williams' Pink Pills. You can't afford to experiment with other remedies, for there must be no guesswork in the blood. Give it the elements it lacks, thus giving it a new, healthy, vigorous life. Mrs. R. K. Hepworth, Ont., tells as follows what these pills did for her daughter:—"I think it a duty to let others know the benefit which Dr. Williams' Pink Pills have been to my daughter. I was weak and nervous and badly run down. She took medicine from the doctor but got no benefit, and finally she was not able to walk to school. I was advised to give her Dr. Williams' Pink Pills, which I did, and after taking them for a time she was restored to perfect health. I cannot again too highly of these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Editorial Apology

The editor of a small paper in a remote district of Southern California found himself unable to insert his usual column of births, marriages and deaths. Thinking that some apology was needed for such an untoward circumstance, he inserted the following, in clear, black type: "We regret that owing to pressure upon the space several deaths have been inevitably postponed."

Birmingham, Ala., claims the largest Sunday school attendance in proportion to population of any city in the world.

A truckload of hay was one of the wedding presents given to the bride of a Newmarket trainee in England.

Cable Between Continents

Duplication of Pacific Cable From Canada to Australia

When completed, the duplication of the Pacific cable from Canada to Australia and New Zealand, will serve one of the greatest engineering feats ever accomplished. The cable runs from Vancouver and touches Panning Island, Norfolk Island and Fiji. An enormous number of messages pass over it, and although the you line will cost something like two million pounds it will soon justify the expenditure of this enormous sum. More than seven thousand miles of cable will be needed, and one stretch of the line will be the longest in the world—a distance of 3,465 miles. Some idea of the amount of work that this cable will have to do may be gathered from the fact that nine million words are telegraphed to and from Australia every year.

SUNDAY SCHOOL LESSON

LESSON FOR OCTOBER 1

BIRTH OF JOHN THE BAPTIST

We are today entering upon a six months' course of study in the Gospel of Luke, whose general subject is "Jesus the World's Savior." Today's lesson concerns the birth of John the Baptist, the forerunner of Christ.

I. The Parents of John the Baptist (vv. 5-7).

1. When They Lived (v. 5). "In the days of Herod the King." They lived in a time when ungodliness was rife. The priesthood was very corrupt and the ruling classes were wicked. Zacharias and his wife lived in a time when it was not so easy to be good.

2. Their Character (v. 6). They were righteous before God. To be righteous before God is a high tribute. Many appear to be righteous before men who are not righteous before God. Their lives were so good that they walked in the commandments of the Lord blameless. How beautiful it is when husband and wife are united in the Lord and walk together in fellowship with God.

3. They Were Childless (v. 7). Though this godly couple were well married and they possessed the joy of the Lord in their souls, there was a real lack in that home.

II. The Birth of John Promised (vv. 8-17).

1. When (v. 11; cf. v. 19). The angel Gabriel appeared and made known the good news to Zacharias. This excited him, the special messenger of God, was sent to make this disclosure.

2. When (v. 8-14). While officiating as priest this good news came to him. Zacharias must have been desperately praying about this very matter. (v. 13). As he burned incense, which typified prayer, the multitude without were praying.

3. Characteristics of the Child (v. 15-17). (1) Shall be great in the sight of the Lord (v. 15). Though the people did not greatly esteem him he was highly esteemed by God. This is infinitely better than if he had been greatly esteemed in the eyes of men or in his own eyes. This is the esteem for which we all should long and pray. (2) Shall drink neither wine nor strong drink (v. 16). The child shall become a Nazirite, separating himself from the sensualities and dedicating himself to the service of the Lord. (3) Be filled with the Holy Ghost (v. 17). The energy of the divine spirit would enable him to lead the people to repentance (v. 16).

(4) Shall go in the spirit and power of Elijah (v. 17). In this power he was to prepare the people for the coming of the Savior and the salvation of Israel. (v. 18). Zacharias Asks for a Sign (v. 18-23).

Although the aged priest was earnestly praying for the salvation of Israel the gracious promise of the angel which was the cause of his salvation, staggered his faith. He was unable to believe that that for which he only hoped and prayed would be realized. The angel gave Zacharias a sign. He was smitten with dumbness which was the consequence of the unbelief of Zacharias. Because he refused to praise God in faith for this gracious promise God caused his tongue to be silent until the promise was fulfilled and his lips could open in thanksgiving and praise. Though he was thus rebuked, at the same time his faith was strengthened by the manifestation of the supernatural. God wants us to trust Him, to believe His promises, no matter how contrary to reason they may seem.

IV. The Promise Fulfilled (vv. 24-38).

When the time came for the birth of John, Elizabeth brought forth a son and the neighbors rejoiced with her. On the eighth day they circumcised the child and gave him a name according to the instruction of the angel (v. 13). The name John was contrary to the family custom. By means of writing Zacharias made known the name which he would have by divine instruction. At this time God opened the mouth of Zacharias and he offered up praise.

JUDICIAL SALE OF TOWN PROPERTY

Pursuant to the judgment and final Order for Sale, there will be offered for sale by James William Stuart, auctioneer, at the premises hereinafter described in the Town of Wainwright, Alberta, on

SATURDAY the 30th day of SEPTEMBER 1922, at the hour of 2.30 o'clock in the afternoon, the following lands and premises namely:

Lots 3 and 4 in Block 14 in the Town of Wainwright, Alberta as shown upon a map or plan thereof of record as Number 6445V, excepting thereout all mines and minerals and subject to the reservations expressed in the original grant from the Crown and in the existing certificate of title.

The Vendor is informed that the above premises are situated in the heart of the business district of the Town of Wainwright, an important Divisional Point on the Canadian National Railways, C. P. main line.
That there is a substantial building on the lots in which until recently there was carried on the business of a livery and sale stable.

The property will be sold subject to a reserve bid and to all outstanding taxes.
The terms of payment are ten per cent of amount of purchase money on day of sale and the balance within sixty days thereafter without interest.

In all other respects the standing conditions of sale of the Supreme Court of Alberta as approved by the Master in Chambers will govern.

Further particulars may be had from Messrs. Fieldhouse & Hunter, Wainwright, Alberta Solicitors for the Vendor.

PRIVATE SALE OF FARM PROPERTY

PURSUANT to the directions of the Registrar, offers will be received by the undersigned up to the 6th day of October A.D. 1922, for the purchase of the North East quarter of Section Thirty-two (32) Township Forty-three (43) Range Six (6) West of the Fourth Meridian, situated about five and one-half miles from Greenshields, Alberta.

For further particulars, terms and conditions of sale, apply to Messrs. Griesbach, O'Connor & Co. Barristers, etc.,
Approved—Edmonton
A. T. Kinnaird Alberta
Dep. Registrar. 27-9c

TOWN OF WAINWRIGHT

Tax Sale Notice

Take Notice that the list of lots as published in the Alberta Gazette on the 15th day of September, 1922, has been sold by the Town of Wainwright on account of non-payment of taxes and the year allowed for redemption will expire on the 10th day of November, 1922.

If you wish to contest the legality of the sale of such lands you should immediately make application to the judge of the District Court of the judicial district within which the land is situated for an order staying the issue of a certificate of title to the purchaser of such lands.

Dated at Wainwright, Alberta, this 22nd day of September, 1922.
H. Y. PAWLING,
4-10 Sec.-Treas.

FARM FOR SALE

The Soldier Settlement Board of Canada offers for sale by public tender the farm described below: The North-east quarter of 24-43-12w4

4 miles from Loughheed; chocolate sandy loam; 75 acres cultivated; 63 acres pasture; frame house; partly fenced.

Terms of sale are—All cash or not less than 10 p.c. of the purchase price in cash; balance amortized over a period of 25 years, interest calculated at the rate of 6 p.c. per annum. Tenderers must be accompanied by accepted cheque for not less than \$100.

The highest or any tender not necessarily accepted.
Tenders will be opened on the 2nd day of October, 1922.

Tenders should be marked "Sale No. 216" and be addressed to District Superintendent, Soldier Settlement Board, Williamson Block, Edmonton.

DO YOU EVER READ THE GOOD BOOK

The following items will prove that it pays to read the scriptures. If you have the "Bibles" read the 27th Psalm.

If your pocketbook is empty read the 37th Psalm.

If people seem unkind read 15th chapter of John.

If you are discouraged about your work read the 120th Psalm.

If you are all out of sorts read the 12th chapter of Hebrews.

If you can't have your way in everything, keep silent and read the 3rd of James.

If you are losing confidence in men, read 1st Corinthians 13.

Pass it on. It's good.

MAIN STREET WAINWRIGHT

Great Activity Results From Resuming Work In Western Coal Mines

Lethbridge, Alta.—All lines of business exhibited signs of improvement in view of the coal strike strikingly and a reopening of all mines this week.

Resumption of mining means the return of a million dollars (fortnightly) payroll to this city and towns of the Crown, Nest Pass, operators having a six months' run, full shift, at eight. It is believed here that all danger of a coal famine on the prairies has now been averted.

Miners to the number of about 400 employed on farms and in construction camps are hastening back to the mine camps to secure their old jobs, and those Longworthy, Superintendent of the Government Labor Bureau, said that this was complicating an already acute labor shortage. Two hundred men are wanted here for the harvest, and in other fields, but none are available. Mr. Longworthy has sent out an urgent call for men, and operators are pouring in as harvest operations increase. A thousand men

will be needed in Southern Alberta to harvest this year's big crop.

Calgary.—Coal miners in District 18, during the recent strike, it is estimated, have lost approximately \$2,500,000 in wages, while the members of the Western Canada Coal Operators' Association are faced with a loss of \$9,000,000. These figures are arrived at from evidence as to earnings given before the Knowles Conciliation Board. The strike has been in progress for practically five months, and was the second longest strike in the district, that of 1911 lasting three months longer.

From interviews with various operators, it is predicted that the mines will now be working to their utmost capacity, and it is anticipated that quite 3,000,000 tons of coal will be mined by the union collieries by December 31 next.

In addition to the association mines, there will be a very considerable output by the non-union companies, totalling probably about 400,000 tons a month.

EUROPE WILL REQUIRE MUCH WHEAT OWING TO DECLINE IN PRODUCTION

Washington.—Europe will have to import 65,000,000 bushels of wheat this year, or 27,000,000 bushels more than last year, because of the decline in this year's production, the Commerce Department was advised by Alfred P. Dennis, its special representative in Berlin.

Exclusive of Russia, this year's European wheat crop is estimated, Mr. Dennis said, at 1,057,000,000 bushels. The total represents a decline of 156,800,000 bushels as compared with last year's phenomenal yield.

This falling off in yield was accounted for by Mr. Dennis by a reduction of 1,500,000 acres in the area sown in Europe, by unfavorable grow-

ing conditions in the winter and early spring, and in the case of Germany and Austria, by the lack of fertilizers. The bulk of the decline, he added, was accounted for in the losses in three countries as follows:

France, 48,000,000 bushels; Italy, 35,000,000; and Germany 25,500,000. Production in Great Britain, he reported, shows a decrease of nine per cent, indicating a production in home grown milling wheat with last year's reduction. The only important gains in wheat production over last year, he declared, are in Roumania and Poland, where the yields are estimated at 12,750,000 bushels and 9,700,000 respectively.

National Loss Is Suffered By Ireland In Death Of Collins

London.—The death of Michael Collins, who has fallen in actual combat with the rebels as one of the first victims of the substitute plan of guerrilla warfare for organized resistance to Provisional Government, has impressed the British public far more than did even the death of Arthur Griffith, while the circumstances of his death, fighting against desperate odds in a carefully arranged ambush during the course of an inspection of his troops' position around Cork, adds to the halo surrounding his lamented death.

His daring and his personal attractiveness, combined with his adventurous career and his reputation as a courageous fighter, as well as a prudent administrator, helped to give him prominence and importance in the public eye, which was not shared to anything like the same extent by Griffith, who really was little known to the British people, and whose retelling of the deed did not lend itself to public demonstrations.

The British press is filled with tributes, personal sketches, and of the hair-breadth escapes of the commander-in-chief, together with tributes to his loyalty in carrying out the conditions of the treaty he signed with Great Britain. Prominent men at home and abroad, from the Prime Minister down, hastened to pay tributes of condolence and respect to the man who died.

When Arthur Griffith died, it was the subject of general comment that his life's work was virtually accomplished and his ideals achieved. With Michael Collins, his work was still to do, and perhaps the question must be asked: the British public is what will follow upon the tragic disappearance of the two most important Irish Free State leaders. It is pointed out that of the five principal signers of the Anglo-Irish treaty, only one now remains in the Free State Government, Eamon J. Duggan. Of the other signatories, Griffith and Collins are dead, George G. O'Duffy resigned because he disapproved of the draft of the constitution, while Richard Barrett was since dropped out of the Government.

Mr. Lloyd George issued the following statement for publication: "I am inexpressibly sad at the news of the death of this gallant young Irishman. He fell a victim to a treacherous blow, delivered when he was engaged in endeavoring to restore order and liberty to his country, which stands sadly in need of it. His engaging personality was friendship even amongst those who met him as foes, and to all who met him the news of his death comes as a personal sorrow. "I sincerely hope his death will be the last episode in this dark chapter of Irish history and that a new and brighter story will henceforth be

written in the life of that unfortunate land."

Lord Chancellor Birkenhead, Winston Churchill and Viscount Fitzalan were among the men prominent in British public life who have sent messages to Mr. Collins, sympathizing with the Free State Government in its loss.

According to a Dublin dispatch to the Press Association, General Collins was to have been married this month.

Another Seed Grain Marketing System

Will be Undertaken by Alberta Department of Agriculture

Edmonton.—Making the third marketing system to be established by the administration, marketing of seed grain on an extensive scale and in accordance with a plan seeking to encourage the production of pure seed in Alberta is to be undertaken by the Provincial Department of Agriculture as a result of arrangements completed and which have not received the approval of the Hon. George Hoadley, Minister of Agriculture. The announcement of the new scheme has been made by H. A. Craig, Deputy Minister. It follows the Government's operations in butter and egg marketing.

Chinese Declare Peace

Leader of South China Faction Says War Is Ended

Peking.—The republican cabinet announced that President Li Yuan-Hung is willing to resign in favor of Sun Yat Sen, deposed head of the South China Government, provided Parliament approves such action.

Sun Yat Sen, leader of the South China faction, announced that peace reigns again between the north and south and that "the war is ended."

Soviets May Expel Scientists

Reval, Estonia.—A dispatch received here from Moscow announces the arrest of 200 Russian scientists and writers during the last few days in Moscow, and of 20 in Petrograd. The dispatch says they are accused of being unfriendly to the Soviet Government and that they will be expelled from Russia for various periods.

Excursion Fares to East this Winter Montreal.—The Canadian railways have decided to grant excursion fares from Alberta, Saskatchewan and Manitoba to all points in Eastern Canada during December and early January, to afford an opportunity to the people in the prairie provinces to visit Eastern Canada.

Quebec Hands Over Fines

Ottawa.—The Federal Government's claim against the province of Quebec arising out of the matter of fines and penalties imposed for infractions under the Military Service Act in that province is to be settled on payment by the Quebec Government of \$20,000, in addition to the \$80,000 already turned over to the federal treasury. The claim arises from the payment to the Quebec Government of a large number of fines and penalties which ought to have been remitted to the Receiver-General "Ter Dominion."

To Assist Farmers

Saskatchewan Premier Has Feasible Plan to Prevent Glutting Wheat Market

Regina, Sask.—A concrete suggestion outlining the method which might be adopted by the banks to assist the farmers to market their grain in such a manner as to prevent the glutting of the wheat market and a consequent depression in prices was telegraphed to Hon. W. L. Mackenzie-King, by Premier Charles A. Dunning.

"Pointing out that the banks stand 'at the base of the pyramid of credit,'" Mr. Dunning suggested that "if they could devise means of extending portions of amounts due them from all creditors to enable more gradual liquidation," he feels sure that the effect would be felt through all classes of creditors "down to the farmers and probably prevent slaughter of wheat prices."

Mr. Dunning points out that merchants as well as farmers stand creditors to the banks in considerable sums of money, and his proposal involves a gradual liquidation of their bank indebtedness by all creditors, thus eliminating the necessity for merchants and other crowding the farmers for cash payments early in the fall.

The telegram to Premier Mackenzie-King follows the receipt by Mr. Dunning of a communication from Sir Frederick Williams-Taylor, representing the Canadian Bankers' Association, in which Sir Frederick announces that the banks will furnish "all proper banking accommodation to care for this year's crop," coupled with his personal assurance "that the banks will show the farmers every proper consideration, being deeply interested in the welfare of their customers and the prosperity of your province."

Serious Economic Situation in Ireland

Destruction by Irregulars Has Completely Disrupted Business

Dublin.—Grave economic conditions have come rapidly in the wake of the policy of destruction of the irregulars in West Ireland. The collapse of some of the bigger business concerns has only been averted, it is declared, by steady support from banks, but the fact that the farmers and others have been unable to pay the interest on their advances for many months is bringing about a position in which the bankers may be compelled to take action.

Business prospects are extremely bad; prices of produce are falling rapidly, and the export trade, upon which the farmers depend, is suffering acutely from the dislocation of traffic caused by the destruction of railways and bridges. Perishable products, such as butter, are spoiling, as there are no facilities for cold storage. Until normal conditions restore the output of the creameries must be curtailed.

Report Finding Ontario Gold

Sudbury.—What is considered to be one of the most sensational finds of gold ever made in the Sudbury district is on exhibition here. It is a piece of rock, about 16 inches in length and eight inches thick, and pure gold is easily visible. It was found a few days ago, about 40 miles north of this town.

WESTERN EDITORS

David Bradley, Editor and Proprietor of The News, Radville, Sask.

Says Western Coal Strike Over

Strike of Alberta Miners Has Been Virtually Settled

Calgary.—The Alberta coal strike was practically settled, when the officials say that the miners and the operators came to terms on an agreement which provides:

(1) Reduction of 15 per cent. on the old scale, which will be superceded, as soon as 75 per cent. of the operators in United States soft coal fields sign an agreement.

(2) The agreement shall be in effect until March 31 next.

The agreement must be submitted to a referendum of the men, but the officials say that is largely a matter of form, as it will be endorsed. The miners expect to be back in the mines almost immediately.

Both miners and operators admit that the agreement practically means that the men are going back without any reduction, because either 70 per cent. of the operators across the line have either signed up or will be signed up by the end of the week. The agreement signed accordingly means that the Cleveland agreement has been accepted.

Need to Improve Livestock

Hon. W. R. Matherwell Tenders Advice to Western Farmers

Winnipeg.—A great opportunity for improvement of farming in the west is being missed in not petting the quality of the livestock, declares Hon. W. R. Matherwell, Minister of Agriculture.

"This is a serious drawback, and should be remedied," the Minister said. "Quality is what is needed in our livestock. The man who has a good beef animal for the block need never fear for the want of a market."

Mr. Matherwell said he found general condition in the west good, both agriculturally and politically. "The only question you hear being asked everywhere," he said, "is 'Who is to be made the goat for the failure to evolve the wheat board, and the consequent loss to the farmers of the west?'"

"The experimental stations," he said, "have been operated almost ever since the war began, under the difficulties of cramped finances. This has been unavoidable, but should the finances of the country permit, I will endeavor to have the Government make financial provision for their more complete equipment."

Failed to Swim English Channel Dover, England.—T. W. Burgess, the Englishman who swam the English Channel in 1911, again essayed the feat, starting from the French shore to cross to England. He had to give up in mid-channel, however.

Jean Michael, a Frenchman, also started the swim but failed.

By making your purchases from your home merchant you are contributing directly to the prosperity of the community in which you live.

—Philadelphia Ledger

No Change in Irish Policy

Dublin.—The Irish Free State Government will be continued on the lines marked out by Arthur Griffith, Minister for Finance, whose views, freely exchanged with his cabinet colleagues, anticipated the necessities of the whole situation. No new lines of policy are contemplated. Schemes for developments available to the establishment of the Free State, and all efforts of the Free State Government will be directed towards establishing the new state firmly in accordance with the terms of the treaty with Britain. The adherence of William Cosgrave and Richard Mulcahy will be as strict as that of the two dead leaders.

Murder Plan in Egypt

One Englishman a Day Until Nationalist Leader is Returned

Alexandria, Egypt.—The recent attack in this city on Lieutenant Colonel Arthur Frederick Hamilton Piggott was the sixteenth case in the series of murderous assaults upon British subjects in Egypt. It called again to mind the threat of the nationalists that an Englishman would be shot daily until the return of Said Zagloul Pasha, the Nationalist leader who was deported by the British last December, and it is the latest addition to the extended chain of anti-British political outrages.

Lieutenant Colonel Piggott, of the Royal Army Pay Corps, was shot and gravely wounded in Kad el Fadi Street by unknown assailants while walking to his office. He was taken immediately to the house of an Egyptian doctor, Mr. Abdel Meguid at No. 1 Kad el Fadi Street, and was given first aid, being afterward transported to the Officers' Hospital at Abbassieh where one of the three bullets which had hit him was extracted.

Hopes are entertained of his recovery, but this new crime has aroused great indignation among the European population in Egypt.

Send Supplies

Relief Ship Sails for Wrangel Island to Aid Canadian Expedition

Vancouver.—Another Stefansson expedition to Wrangel Island sailed from Nome, Alaska, recently according to a special dispatch from Nome.

Captain Joe Bernard, a noted Arctic navigator and friend of Vilhjalmur Stefansson in the second and third expeditions which the explorer made to the island, is in charge of this latest trip, and is aboard his famous ship, the Teddy Bear.

Last summer Stefansson sent a party to Wrangel Island, raising the British flag formally to claim sovereignty over the domain, which is rich in fur and minerals. At the head of the expedition was Allan Crawford, of Toronto. Since September last year, nothing has been heard of the expedition. The ship which left Nome is carrying them fresh supplies and reinforcements, consisting of three white men and a party of Eskimos. The Teddy Bear should be back in Nome within three weeks.

Gompers Speaks at Montreal

Veteran President of American Federation of Labor Addresses Meeting

Montreal.—War's evils, internationalism's virtues, the conspiracies of employers to throttle workers' organizations, and the "stupidities" of the British and United States Governments, were the keynotes of fraternal addresses to the Dominion Trades and Labor Congress at its only session here.

Samuel Gompers, veteran president of the American Federation of Labor, who was introduced by Tom Moore, President of the Congress, as "man whose years of service as a leader of organized labor are greater than the ages of many delegates here," pleaded the cause of the international trades unions.

Employers, he said, cared little whether their employees were Protestants, Roman Catholics, Jews, Indians or negroes, as long as they remained apart and worked cheap. Labor should then take its lesson and organize heedless of creeds or races.

Riley's Standard Bearer Arrested

Charged With Theft Man Admits He Was Not Overseas

Toronto.—Charles Gannett, who carried the flag of the hikers when they went on their trek to Ottawa to demand relief for returned men, was arrested on a charge of theft. Sergeant David Hunter, of the 48th Highlanders Regiment, complainant in the case, charged Gannett with theft of a military uniform. Gannett is alleged to have admitted not having been overseas.

Lost in Labrador

Vancouver, B.C.—Miss Marguerite Lindsay disappeared a few days ago from Greatfall Mission, Girgwright, Labrador, and her friends believe that she was drowned, according to a message received here by Mrs. Herbert Drummond, Miss Lindsay's aunt. Details are to follow by letter. "Miss Lindsay's father resides in Montreal."

Powers Fail To Reach Understanding Over Reparations

Railway Freight Shed Destroyed by Fire

Loss at Fort William, Nearly Two Hundred Thousand Dollars

Fort William, Ont.—No. 3 freight shed of the Canadian Pacific Railway was practically destroyed by fire Aug. 20. The flames were kept from spreading into No. 2 shed which is separated by a fire wall from No. 3. The fire also spread to several box cars in the yard.

No. 3 shed and contents are completely destroyed and between 25 and 30 empty box cars are also a total loss. The shed contained 1,000 bags of cement, 1,000 tons of nails, several hundred tons of binder twine, some iron pipe and a quantity of miscellaneous freight. The bow of the steamer Kenora, which was tied to the dock, was badly scorched before she could be moved from the vicinity of the fire.

No information can be obtained as to where the fire started. Two Italians, who claim that they were the first to give the alarm, state that the shed was on fire when they first saw the flames, but others say that the first blaze originated in one of the box cars standing by the shed and spread to the buildings.

No records of the cost of the burned sheds are available in Fort William, but it is estimated that it could not be replaced for less than \$70,000, and the cars and damaged to the extent of at least another \$25,000. With the contents of the freight sheds the loss in the fire will probably total between \$150,000 and \$200,000.

Motorless Plane In Air For Three Hours

A New Record is Established by German Aviator

Berlin.—A new record for sustained flight in a motorless airplane was set by Herr Hentzen, student flier of the Hanover Technical School, when he remained aloft more than three hours. The flight was made on the concluding day of the gliding competition held in the Rhoen Mountains, near Gersfeld.

Hentzen is the flier who started the record of aviation recently by remaining in the air two hours and ten seconds, breaking all records by a considerable margin.

Alrman Dotsch, of Darmstadt, took off below the Wasserküppel Mountain and landed successfully, landed on the summit. Herr Hackmann, of Darmstadt landed 330 metres above his starting point.

Report Ex-Kaiser Engaged to Widow of Former Emperor William is betrothed to the widow of a German aristocrat, according to a report received by the Times. The woman is said to be almost of royal rank and the mother of three children. She and the children recently visited the former emperor at Doorn, Holland. It is said the marriage will take place during the coming winter. The report adds that this is not the woman to whom the one-time emperor was reported some time ago to be betrothed.

George Ham Celebrated 75th Birthday

Montreal.—George H. Ham, the venerable railway magnate, celebrated his seventy-fifth birthday Aug. 23rd. He was at his office at the Canadian Pacific Railway Windsor Station, as usual. His seventy-fourth birthday was marked by the publication of his book, "Reminiscences of a Recollector."

Mr. Ham is now preparing another book.

Vancouver Millers Lower Flour Prices

Vancouver.—Bringing their product in line with recent declines in the price of wheat, Vancouver millers have reduced the wholesale price of flour by thirty cents a barrel for car load lots.

Washington Official Defines Status Of The British Debt To U. S.

Washington.—Funding of the \$4,135,000,000 debt owed by Great Britain to the United States was declared by Secretary of the Treasury Mellon to have no relation to the war loans made by the United States and Great Britain to other governments or to questions arising in connection with reparations payments of the former Central Powers.

Mr. Mellon made his declaration with respect to the British debt in a formal statement issued, he said, on account of numerous enquiries reaching the treasury as to the exact status of the obligations of the various European governments held by the United States with respect to the British debt. Reports have been published and statements made in some quarters, Mr. Mellon said, that the British liability was not incurred from the British Government, but for the other Allies, and that the United States, in making the original arrangements, had included in substance that though the other Allies were to use the money borrowed, it was only on British security that the United States was prepared to lead it.

In answer to these enquiries, Mr. Mellon said, "it should be stated that the obligations of foreign governments in question had their origin almost entirely in purchases made by the United States Government for the war purpose of the Canadian Government for the purchase of the Allies.

Paris.—The negotiations in Berlin between the reparations commission and German Government officials came to an end without having produced any compromise on the German reparations question acceptable to both the British and French representatives according to latest advices reaching French official circles.

The failure of the Berlin negotiations are attributed largely by the French observers to the attitude of Chancellor Hitler, who is said from the very commencement of the conversations to have displayed an unyielding point of view toward the question of granting further guarantees. The French observers assert that the absence from the negotiations of Dr. Herms, the German finance minister, was also a factor toward the failure, since Dr. Herms was known to have a break with France and would have been willing to go much further than the chancellor. It is also declared in French quarters that Dr. Wirth showed a lack of understanding of the problem, while Dr. Herms is well informed on it.

It is not expected that the reparations commission will take a final decision on the question of issue for at least three or four days.

Berlin.—Prices are soaring in consequence of the collapse of the mark. Comment on all sides reflects widespread disquietude and the urgency of remedial measures.

Alberta and B.C. Press Meeting

Strathmore Standard Editor Is Elected President at Opening Session

Vernon, B.C.—John MacKenzie, of the Strathmore Standard was elected President of the Alberta Press Association at a joint convention with British Columbia and Yukon Associations. John Torrance, of the Lethbridge Herald, and J. Housiaux, of the Corcoran Review were elected Vice-Presidents, and L. D. Nesbitt, of the Baysano Mail, Secretary. The new executive comprises: John Imrie, Edmonton Journal; George Gordon of the Ponoka Herald; Mrs. Derrett of the Pincher Creek Echo; W. J. Hunt, of the Wainwright Star; and L. D'Albertain of the Chauvin Chronicle.

13 Manitoba Elevators Purchased

Fort William, Ont.—N. M. Patterson, President of the Paterson Company, announced the acquisition of 13 elevators existing in Southern Manitoba in the vicinity of Deloraine, formerly owned and operated by the Young Grain Company. Their purchase gives the Paterson Company a total of 95 country elevators being operated throughout the west.

London-Paris Air Express Wrecked

Paris.—Five passengers on a London-Paris airplane narrowly escaped death when the machine crashed at Berck-Place, about 22 miles south of Boulogne. The mishap was due to engine trouble. Although the machine was smashed, the passengers escaped with minor injuries.

Ill-tit Still Stamped Out

Windsor, Ont.—Ill-tit stills have been practically eliminated from Canadian border municipalities as a result of the warfare waged against moonshiners by the Mounted Police in charge of Sergeant Birdwhistle, it is asserted by William Egan, Federal Prosecutor here.

De Valera Emerges

London.—Eamon de Valera, Irish republican leader, has emerged from seclusion since the death of Michael Collins and is reported to be active with a large force of rebels, the Belfast correspondent for the Evening News said he had learned.

Spend your money at home, thereby helping your own town and local merchants.

**SPECIAL ACCOMMODATION
OLD COUNTRY TRAVEL
XMAS AND NEW YEAR**

All those contemplating a trip to the Old Country for next Christmas and New Year should not overlook the sleeping car service and special train service from Western Canada to the Atlantic seaboard which will be provided by the Canadian National Railway's next November and December, particulars of which are as follows:

For S.S. "Canada" and S.S. "Antonia" sailing from Montreal November 18th, a special tourist sleeper will leave Edmonton on the "Continental Limited" November 14th and another tourist sleeper from Edmonton on train No. 6, November 13th, running through to Montreal, close to ship's side.

For S.S. "Saxonia" and S.S. "Cassandra" sailing from Halifax, December 1st, a special tourist sleeper will leave Edmonton and Saskatoon on the "Continental Limited" November 27th, and Winnipeg, November 28th,

The Extraordinary Qualities of Dr. Price's

First, **Wholesomeness**: The healthful properties of Dr. Price's Cream-Baking Powder are proclaimed by most eminent physicians.

Second, **Leavening Power**: Dr. Price's Cream Baking Powder is so scientifically balanced that it leavens any kind of dough to precise perfection without puffing it on the pan and letting it fall in the oven.

Third, **Economy**: Dr. Price's prevents waste of good materials and saves enough eggs to pay for itself.

Insure the success of your baking by always using—

Dr. PRICE'S CREAM BAKING POWDER

MADE IN CANADA

The pure, wholesome Cream of Tartar Baking Powder.

Send for FREE Cook Book—"Table and Kitchen"
149 Notre Dame East, Winnipeg, Can.

running through to ship's side at Halifax.

For the S.S. "Regina" from Halifax, December 3rd, a special tourist sleeper will leave Edmonton and Saskatoon on the "Continental Limited" November 28th, Winnipeg 29th, and a special sleeper from Calgary via Saskatoon and Regina on train 10 and 6, November 27th, running through to ship's side.

Special Through Train
For S.S. "Andania" and S.S. "Meganitic" ex. Halifax, December 9th and December 10th, respectively, through tourist sleepers will leave Vancouver, Calgary, Edmonton and Regina, with additional standard and tourist sleepers from Winnipeg, from which point all sleepers for these two sailings referred to will be consolidated and operated in a special solid through train, which will also have superb dining car facilities and other standard coach equipment. This special train will leave Winnipeg December 6th, and will run through to ship's side at Halifax.

For any of the above sailings cannot do better than also book reservations in any of the above through sleepers, which ensures direct connection with the steamships without any change of cars enroute, and with a maximum of comfort at no additional expense. Passengers will be allowed to occupy these sleepers at sea board the night prior to sailing, if necessary.

Bookings should be made early in view of the demand for space for Christmas sailings.

Further information as to rates, sailings, reservations, etc., may be secured from any agent of the Canadian National Railway.

NEW DISCOVERIES OF GAS

A three-million-foot flow of gas has been struck at Barwall, near Taber, by the Calgary Gas Company. A flow of gas was also struck during the past week at Vauxhall, on the farm of the Otis-Staples Company near Medicine Hat.

Everybody loves a lover, but the cartoonist finds the politician also interesting these days.

Railway News

Guelph.—Realizing that some effort should be made to preserve the old C. P. R. station building, the first house built in Guelph, which is located on a piece of ground at the foot of Woodville Street and which is fast going to ruin, the civic improvement committee of Guelph decided to make a move towards having improvements carried out to preserve the building.

Galt.—General Manager M. W. Kirkwood of the Lake Erie & Northern Ontario Grand River Railway has announced that early in July work would be started on the new Union Depot on Main street. The plans have been finally approved and tenders have been called for. The building, which will be of red brick construction, one storey in height, but later it is intended to add another storey, to accommodate the general offices now located in Scott's Block.

Moore Jaw.—The roof is now on the Dominion Express Company's new building, west of the Canadian Pacific Railway Company office building, and the work is being rushed with great speed. As soon as the Express Company building is in shape to be occupied, the old building will be removed and the work of installing the new tracks will be commenced.

In front of the new depot the concrete roadway is laid in squares of ten feet. The city electricians have completed the installation of the two electric light standards at the outer edges of the sidewalks on both sides of the roadway.

Galt.—After 46 years of continuous and faithful service as an employee of the C. P. R., Alex. McKean, city ticket agent here for the past 16 years, joined the list of the supernumeraries and his place was taken by John Campbell, for many years a permanent resident of Galt, who one time depot and freight agent, but for the past several years travelling passenger agent.

Mr. McKean commenced his railroad career in the freight audit department at Winnipeg, was agent at High Bluff, Manitoba, for a couple of years and for 17 years successfully conducted a mercantile business in Mount Forest, handling railway, steamship, telegraph and express services. It was from Mount Forest that he came to Galt in 1906.

Vancouver.—Vancouver's first transcontinental railway train entered the city thirty-five years ago, when prophecies were made which have now reached full realization. In the address of welcome to Henry Abbott, who was then superintendent of the Pacific Division of the C. P. R., Mayor M. A. Maclean drew a word-picture of Vancouver in the future which is now a fact.

Vancouver's first train was drawn by an old wood-burning type engine and included a baggage, colonist, sleeper and pullman and drawing-room cars of the latest type at that date. The engine was draped in evergreens and bore placards bearing inscriptions "From Ocean to Ocean" and many mottoes declaring the achievements of the men who undertook the construction of the C. P. R.

P. Barnhardt was conductor and P. Righter, engineer.

The celebration of the arrival of the train was carried on far into the night, the city band serenading officials of the C. P. R. and a torch-light procession being staged through the city.

Woodstock, Ontario.—In the death of Charles Garden, C.E., which occurred at the residence of Col. F. H. J. Dibley recently, there passed away the last male member in his generation of a family associated with the history and progress of Woodstock for well-nigh, if not quite, a century. Mr. Garden was connected with the building of the C. P. R. through the Rockies. He was one of the advance guard of the exploration party. The train went to this party was via the N. P. R. to Bismark, Dakota, up the Missouri to Benton and thence by truck to Calgary and up the Bow. Only one party came over the Rockies' summit. Mr. Garden was train man and the party consisted of fifteen men. They came through the Vermilion south of Kinsmen and made their way to what is now called "Golden." They built "The Cache" which has ever since been known, of course, extensive restorations and is now known as Moodie's House.

In 1884-5, Mr. Garden worked on C. P. R. construction near Lake Superior on White River, Peninsula Harbor, and it was at this time that the first train through C. P. R. came to Vancouver. He was later engaged on construction on the Deloraine branch to the Coal Mines for the C. P. R. He had charge of location and construction on Sooris Branch and was for some years in office work in Winnipeg. In 1897 he was on the location of the Crow's Nest branch, locating the loop and tunnel of the branch.

To Holders of Five Year 5 1/2 per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5 1/2 per cent interest, payable half yearly, of either of the following classes:—

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmaturing coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

WAINWRIGHT, ALBERTA, SEPTEMBER 27th, 1922.

NEED THERE BE ANOTHER

DEVASTATING WAR IN EUROPE?

The recent crisis in which Great Britain, France and Italy are so immediately concerned as to whether the Turks shall or shall not respect treaties arising from the last Great War, seems to be a matter of great moment to the man on the street, but there should be no actual need for apprehension in this regard.

The Edmonton Bulletin states the matter in so concise a form, and so singularly along the lines in which the whole affair appeals to us that we take the liberty of quoting the editorial in full:

Canadians are in no mood to be dragged into a needless war to gratify the antagonisms of Europe or to cover up the mistake of Allied statesmen. Still less are they inclined rush into hostilities without taking a deliberate survey of the issue. They have been through the horrors and have not forgotten the grim realities or fully recovered from the wounds. Our dead in Flanders are still too much in mind, our crippled too many and our debt far too heavy for jingoism. 'S far as Canada is concerned, the peoples of the old world will have to settle their disputes among themselves unless it can be shown that a solemn obligation rests upon the people of the Dominion to intervene at the cost of the lives of more of their sons.

That does not at all mean that Canada will not fight if it comes to the place where fighting has to be done or duty shirked. Canadians are a peaceable people, but they are no pacifist brood. Much as they hate war, they understand there are things still worse than war, and that national dishonor is too high a price to pay for the kind of peace that can be bought with such coinage.

As between sending a contingent to help keep the Turk out of Europe, and going back on a plain responsibility they could have no choice; but before they plunge again into the fray overseas they are entitled to ask themselves whether such an obligation rests upon them. That is what they are now doing from one end of the Dominion to the other.

In that regard the thing to be noted. This is not really a new war that Canada is asked to take a hand in. It is not even a left-over from the great conflict or an eruption arising out of the settlement at Paris. It is in fact only a new phase of the same war. So far as the Turk was concerned the war which began in 1914 has not ended yet. He was, not in the supposedly final scene that was staged in Paris. He did not sign the Treaty of Versailles; neither has he signed any other treaty. His territory in Europe has been parcelled out among the Allies, his capital occupied by an international force and his sultan made a virtual prisoner in his palace, but the arrangement has never been ratified by the Turkish parliament or any other body or person who could be supposed or alleged to represent the Turks. Nominally the state of war has continued unbroken, and if Kemal's army invades the so-called "neutral" zone along the Dardanelles it will be only renewing the fighting which began in Gallipoli, ad upon soil which has never been formally ceded to international control.

The question is not therefore whether Canada is willing to engage in a new war, precipitated by new causes and with new objectives but whether the Dominion is to take part in the new—and perhaps last—campaign of the same old war. Are we going to leave it to the other Allies to finish the job, or shall we "carry-on" to the final wind-up?

The published summary of the communication from London does not suggest that Canada would be expected to send any considerable force—at least not at present and not unless needed. What seems to be suggested is that the overseas Dominions should be represented in the operations by contingents large enough to show all parties concerned that the self-governing sections of the British empire stand as a unit in telling the Turk that he cannot again get control of the Dardanelles. If that is the reason for the call to the Dominions to co-operate it is of wider importance than measures of assistance they would be expected to give toward repelling the attack of the Kemalists forces. It may not be Kemal's army that the authorities in London are thinking about, so much as the Moslem copies of India and the other British possessions in Asia and north Africa. The Mohammedan population of the British empire outnumber the whites three to one. Its sympathies are undoubtedly with the Turks, and it has been showing an intractable indisposition in a good many quarters since the theory of "self-determination" was promulgated.

If the other white sections of the empire stand aloof while Britain fights the Turks, what conclusion will the co-religionists of the Turks inside and outside the empire draw from that? Perhaps what London needs is not so much help in dealing with the Turk, as a real demonstration of the solidarity of the Dominions—for the benefit of the restless "faithful" in the Asiatic and African colonies and protectorates.

CLEAN OUT YOUR
THRESHING MACHINES

Attention of threshers through out the province is called to the clauses in the Noxious Weeds Acts which require them to clean their threshing machines before leaving one farm to go to another. The weed branch of the department of agriculture issues a special appeal to owners and operators of threshing machines to see that their machines are properly cleaned before leaving the farm on which they are operating, and also to see that tight bottoms are used on the bundle racks, and that these are swept off before moving to another farm. Weeds become to be a serious menace in many

parts of the province and threshers are asked for their earnest co-operation in the efforts at eradication. Farmers are asked to insist that threshers clean their machines. It is impossible for the provincial government to send about inspectors to all points where threshing machines are in operation and all are asked to realize their responsibility in this matter.

Now that the tax notices are out it behooves every good citizen to save himself that 10 p.c. discount. Pay up; the town needs the money!

Use Lorie Cleansing Cream for cleaning the skin; for sale only at the Wainwright Pharmacy.

MANY THOUSANDS

INDIVIDUAL HOLDERS

Holders of 1922 Victory Bonds who have decided to exchange their maturing bonds for new bonds carrying the same rate of interest, under the proposals of the Minister of Finance which are now being advertised, would do well to surrender their bonds at once, rather than delay until September 30 approaches. When the bonds were first issued in 1917, the 1922 maturity was a favorite with small investors, many of whom were buying bonds for the first time. Consequently, there are many, many thousands of individual holders and it would be a great help to the banks and the Department of Finance in carrying through the conversion expeditiously as well as a convenience to the holders themselves, if they would turn their bonds in to the banks as early as possible.

"THE NATIONAL WAY"

TO

PACIFIC COAST

EASTERN CANADA

CANADIAN NATIONAL offers a diverse route to the Pacific Coast, going rail and steamships, returning all rail, or vice versa, thus giving passengers the advantage of delightful boat trip as well as travelling over entirely different territory in each direction. The Northern Canadian Rockies, traversed by the Canadian National, afford the finest mountain scenery to be found on this Continent, and so vast that it all always new. To make your trip complete a few days should be spent at Jasper Park Lodge.

THERE is nothing that will contribute so much to the enjoyment of your trip or holiday as travelling Canadian National to Port Arthur or Duluth, thence steamers of the Northern Navigation. In connection with this summer trip east, there is the option of returning by a cool all-air route—the Canadian National route—a comfort given route and comfort given trains. Easy by boat, West by rail, or vice versa, or all in both directions.

SPECIAL SUMMER FARES NOW IN EFFECT

Through Daily Transcontinental Service

Faster time - Short line - Best Roadbed - Excellent Service

THE "CONTINENTAL LIMITED" operates daily in either direction between Montreal and Toronto, Cochrane, Winnipeg and Pacific Coast points, and comprises through all-steel compartment observation library car, standard and tourist sleeping and dining cars, colonist cars and coaches. The "NATIONAL" operates daily between Winnipeg, Port Arthur and Toronto, carrying modern and up to date equipment.

THERE IS A WIDE CHOICE OF ROUTING AND STOP OVER PRIORITIES, ENABLING YOU TO COVER NEW GROUND IN BOTH DIRECTIONS.

Any Agent will assist you with your trip. Route Fares, make Reservations and look after all details.

Britain Will Uphold Neutrality Of Straits Of The Dardanelles

London.—The question of peace or war in the Near East seems to turn, first, upon whether the question of the status of Thrace can be kept separate and distinct from the question of neutrality and freedom of the Dardanelles, and, second, whether the guns begin to speak before the negotiations between the Allied representatives in Paris have ended.

While there is not the slightest diminution in the announced determination of the British Government to uphold the neutrality of the Straits of the Dardanelles, a very significant semi-official statement seems to indicate some modification of the British policy and its attitude toward Greece on Thrace, which it may be assumed is the outcome of the Paris negotiations.

This statement declared Great Britain was seeking nothing for herself, but that she would insist on neutral-

sation of the Dardanelles and free passage of Nations or some other inter-ference of the waterway under the League of Nations. All other questions were secondary.

One of the strongest charges made against Premier Lloyd George's Near Eastern policy, especially by the Labor party, has been its pro-Greek character. The Labor party announced that it was unwilling to engage the nation in a war for the fulfilment of Greek ambitions. It has been commented on as strange that after the Premier's conference with the Labor leaders on Wednesday, no report of the speeches made was published by either side to the conference. A probable explanation of the silence is thought by some to be found in the statement intimating that the question of Thrace may be regarded as a secondary matter and susceptible of arrangement by negotiation.

TO PROBE ALLEGED IRREGULARITIES IN INSPECTION OF EXPORT GRAIN

Port William, Ont.—Investigation into alleged irregularities in inspection of outbound grain at the head of the lakes will probably be made by the Board of Grain Commissioners within the next week or two. It is stated that in a certain case samples supposed to have been taken from a vessel loaded with poor grade grain were handed in, the samples being of a grade superior to that of the cargo. The boat was cleared as being loaded with the higher grade grain, but when the cargo was taken by the consignees, they objected to the grade, and demanded reinspection. This, it is alleged, proved that the samples turned in as belonging to the cargo in question could not have been secured from the grain loaded on the vessel, but were of a grade of a totally different and higher grade.

So far as known, no charge has been laid implicating any person connected in any fraudulent attempt to pass off inferior grain at higher price, but one of the staff of inspectors has been laid off, presumably for carelessness in the handling of inspections. Meanwhile, a general investigation of this case and any others that may be brought before the board will likely be held by the grain commissioners within two weeks, possibly at a session in Winnipeg.

Faces Murder Charge

Alleged Slayer of Alberta Constable Is Under Arrest

Lethbridge, Alta.—A nervous and exhausted, Emilie Picarello, alleged slayer of Constable S. O. Lawson, of the Alberta Provincial Police, following a run-running episode in which the notorious bootlegger's son was shot in the hand, was run down and arrested as he was attempting to escape over the mountains at Blairmore to the southeast of this town.

The arrest was made by Constable Bradner, of the A.P.P., assisted by Constables Clarke and Tutin, of the Mounted Police. He was unarmed and surrendered calmly. The woman, Mrs. Lasandra, was also arrested. Picarello was held for murder and escorted to the provincial jail at Lethbridge.

Destructive Typhoon

Honolulu.—Miyake Jim, one of the seven Isles of Japan, has been swept by a typhoon, one of the most disastrous in the island's history, which destroyed 2,100 homes and damaged 45 vessels, according to advices from Tokyo to the Nippo Jiji, a Japanese newspaper in Honolulu. Nine lives were reported lost.

Freedom Of The Seas Is Involved In U. S. Seizure Of British Boat

Washington.—Unless the defendants take an appeal from the decision of the Federal Court in Boston and permit a higher tribunal to pass upon the claim of the United States prohibition navy to jurisdiction over the seas beyond the three-mile limit, the British Government is expected here to take up the subject diplomatically with the State Department.

Up to the present the British embassy has confined itself to requests for information as to the facts connected with the seizure and searches of vessels under the British flag by prohibition agents and has made no appearance in the resulting legal proceedings. A complete lack of sympathy with the operations of the rum runners on the part of the British officials is said to have caused the assumption of this attitude but now that cases have begun to emerge from the court dockets, throwing the

weight of judicial decisions behind the claim of extended high seas jurisdiction, it is understood that there is to be a change in the course of the London Government.

It is the British contention that the issues raised by the court decision in Boston in the case of the British schooner Grace and Ruby, which was held for rum selling beyond the three mile limit, are far more grave and important than any mere question of the punishment of a few smugglers, or the enforcement of domestic customs laws.

In the British view there is involved the great question of freedom of the high seas. If it is possible for any nation to extend its jurisdiction beyond the old recognized limits at its own pleasure and without reference to the other maritime powers, it is regarded by the British as highly important that some understanding should be reached as to the extent of the powers claimed.

Bolivia and Chile May Have War

Geneva.—The relations between Bolivia and Chile are such that "grave difficulties" threaten unless the mediation of a friendly power of the arbitration of the League of Nations can be secured. This declaration is made in a letter received by the Secretary of the League Assembly from Alfredo Gutierrez, Bolivian delegate to the assembly. He points out that Bolivia has been unable to reach an understanding with Chile by direct negotiations regarding revision of the treaty of 1904.

Destructive Prairie Fire

Over \$200,000 Loss in Blaze on Indian Reserve

Lethbridge, Alta.—Two hundred men white and red, after battling against a terrific prairie fire on the southern slope of the Blood Indian Reserve, north of Cardston, succeeded in putting out the blaze after it had done damage estimated at between \$200,000 and \$250,000. The work was aggravated by a strong wind from the north and west fanning the flames until they became a furnace. The fire burned across a 35-mile front taking everything before it. Thousands of tons of hay went up in smoke, besides machinery, camp equipment and supplies. Winsler grazing over 100,000 acres was wiped clean. Indians believed to be in the path of the flames are still unaccounted for. Whatfields across the St. Mary's River were consumed for a time. The fire-fighters returned to Cardston and Rayfield telling of the fury of the fire. It is believed the grass became ignited by matches, run over by a motor party bound from Macleod to Cardston, for Indians near the road halted the party just after they had passed, pointing out the blaze, and asking for help.

Canadiana Reach Malta Safely

Boston.—The American Board of Commissioners for Foreign Missions received a cable from Dr. Alexander MacLachlan, of Kingston, Ont., President of the International College at Smyrna, saying that he and his family were safe at Malta. The message said that James L. Murray, of Ontario, a member of the college faculty, was also at Malta.

Large Increase in Wheat Acreage

London.—According to the estimates of the New South Wales Government, says a Reuter dispatch from Sydney, the acres in the state under wheat cultivation in 1919 are estimated to be 2,650,000 acres, representing an increase of 170,190 acres over last year's total acreage.

Asylums For Use Of Territories

Ottawa.—Insane asylums situated at Ponoka, Alta., Battleford, Sask., and Brandon, Man., and also at Regina, Sask., designated for the confinement of persons becoming insane in the Northwest Territories. Heretofore there have been no asylums officially designated for this purpose.

Injured Berry-Picker Found

Fernie, B.C.—While berry picking on Coal Creek Mountain, Charles Carveta, well-known resident of Fernie, was seriously injured by a falling boulder. He was alone and lay all night on the hillside before he was found by a party of Alpinists.

Debt Funding Delegation

London.—Sir Robert Stevenson Horne will be the leading member of the British debt funding delegation that is to visit the United States. The chancellor's purpose, it is stated, is to sail for America, October 18.

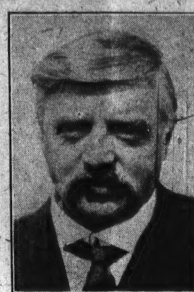

Forestry Student Killed

Port William, Ont.—J. E. C. Brennan, a forestry student, whose home is Deseronto, Ont., and who was working in the woods at Flinders, near Port William, was instantly killed by a falling tree while cutting down timber.

Died in 104th Year

Montreal.—Mrs. James Johnston died here in her 104th year. She was born at Hamilton, Scotland, in 1819.

New U.S. Tariff Bill

Experiment Likely to Defeat Object For Which It Was Intended

London.—The new United States tariff bill cannot fail to accentuate the embarrassment of the United States caused by that country's overwhelming creditor position, is the opinion expressed by The Times in an editorial which subjects the new enactment to searching criticism.

"We join some of the leading financial experts in the United States," the newspaper says, "in regarding this experiment as likely to defeat the object for which it is intended."

The Times finds the explanation why the bill stands a law in "the haunting fear of a large section of the American community that the impoverishment of the older industrial European countries may be reflected in the lowering of the standard of comfort in the United States through the competition in American markets of the products of cheap labor abroad."

Comparing the position of the United States and Great Britain, The Times points out that while Great Britain lives by foreign trade the United States is able to restrict its foreign trade to the narrow limits yet flourish by the development of its own wonderful resources. Nevertheless, it adds, such unnatural restrictions must be a blow to the general prosperity of its citizens.

Fire Destroys Crops

Prairie Fire in Rouleau District Causes Much Damage

Regina.—Fire swept a stretch of country twelve miles long by about three and a half miles in width, destroying close to 2,000 tons of hay, one small granary filled with threshed wheat, about 30 acres of wheat in stock, in the Rouleau district Thursday night and Friday.

Starting in a wheat field on the farm of Allan Heath, nine miles west of the town of Rouleau, it was quickly fanned from a smouldering smudge to a roaring stubble fire that burned with the fury of the old time prairie fires. Driven by a high southwest wind it spread east for about ten miles and there checked by some fresh plowed land, it ran in a southerly direction, leaving in its wake close to 200 smouldering haystacks and hundreds of wheat stocks in a similar condition.

Want Union Jack Displayed

Toronto.—The Canadian Federation of Labor has passed a resolution urging the Dominion to make compulsory the carrying of the Union Jack at the head of all parades and demonstrations throughout the Dominion.

Prominent Miner Drowned

Noma.—James Andrews, prominent miner, operating gold mines between Grapple and Rodney Creeks, west of Noma, was drowned while attempting to ford Penny River, nine miles from here.

\$40,000 Winnipeg Fire

Winnipeg.—Fire caused a loss estimated at \$40,000 to the plant and building of the W. J. Boyd Confectionery Company, Spence Street. The loss is covered by insurance.

Japs Are Ordered Out Of Russia

Chang Chun, Manchuria.—The conference here between Japan, the Soviet Government of Moscow and the Far Eastern Republic of Sakhalin appeared to have reached a deadlock, with the Russian demand that Japan evacuate the northern half of the island of Sakhalin immediately. Japan refused to do this until she has been indemnified for the massacre of Japanese at Nikolaievsk in 1920. Adolph Joffe, Envoy from Moscow, laid a flat ultimatum on the conference table when he notified the Japanese delegates that the Moscow Government would refuse to sanction the proposed trade agreement between Japan and the Far Eastern Republic so long as "one Japanese soldier remains on Russian soil." Joffe continued with the declaration that Japan must immediately evacuate Sakhalin as well as Vladivostok.

Prosperity Wave Coming

Willison Sees Big Development Period Ahead of Dominion

Calgary.—Canada is standing on the eve of a period of development in population in the next quarter of a century which will dazzle the world, according to Sir John Willison, President of the Western Canadian Colonization Association, who spoke before a combined meeting of the Men's and Women's Canadian Clubs of Calgary and the Calgary Board of Trade at the Palliser Hotel here.

Calgary's leading citizens were largely represented at the function which was in the form of a dinner to welcome the promoters of the association and to hear their aims.

Sir John gave a general outline of the aims of the association, which is a branch of the Canadian Colonization Association, and a lengthy and detailed account of how the organization expects to function in bringing new citizens to Canada.

Included in the gathering were Lieut. Governor Brett, Frank Prosser, President of the Calgary Board of Trade, who was chairman; Alderman John W. Huggill, Pat Burns, Mrs. D. A. Bruce, Vice-President of the Women's Canadian Club; Captain J. T. Shaw, M.P.; Captain Robert Pearson, M.P.; Mrs. A. J. Gordon, Secretary of the Women's Canadian Club; Hon. R. B. Bennett, K.C., and many others.

Banish Noisy Women

Interrupters at Sitting of Irish Parliament Are Hastily Ejected

Dublin.—At a sitting of the Irish Parliament, Mrs. Catherine Despard and Mrs. Charlotte Despard were expelled from the strangers' gallery. The expulsion was ordered because of their persistent interruption of the proceedings.

The widow of the editor of the Irish Citizen, who was executed in Dublin in 1916, interrupted from the gallery on the question of prisoners, and, together with another woman who had joined in her protest, was ejected. During the debate on the constitution, Thomas Johnson, Laborite, moved an amendment to omit the preamble and substitute a declaration of Ireland's sovereignty, accompanied by a statement of the right of the Irish people in the future to annul the treaty on due notice being given. Ernest Blythe, Minister of Local Government, in opposing the amendment, argued that such playing with words, and formulas would "only whet the appetites of the anti-treatyites, who revel in such theatrical displays."

Big Increase In Grain Movement

Reports Show Considerable Advance On Number of Cars Handled

Winnipeg.—Resumption of large grain shipments from Manitoba points consequent on dry weather enabling farmers to continue threshing, combined with augmented receipts from Saskatchewan and Alberta points, brought the Canadian National Railway's movement of cars to 1,175 on Sept. 19 against 483 on the same date last year.

During the present crop season, which commenced September 1, 14,300 cars of grain have been moved, this being a considerable advance on the same period last season, when 10,388 cars were brought into Winnipeg from the west.

Will Continue Relief Work

Geneva.—The International Committee for Russian Relief, it was announced, has decided to continue work on the relief of the Russian people, of Norway. The organization will bear Dr. Nansen's name, its title in French being "Action Nansen."

Germany Paid Allies 10,000,000 Marks

Berlin.—The Government, according to the newspapers, has paid to the Allies 10,000,000 gold marks, as part of the installment of 25,000,000 due in liquidation of Germany's private pre-war debts to the Allied nations.

Come North For Game

Regina.—Over 500 Americans came into Saskatchewan this year to shoot ducks, according to an estimate by the Provincial Government officials.

Hope Turkish Tangle Can be Settled By League Of Nations

RUSSIA WOULD SUPPORT TURKS

WILL LEND MORAL SUPPORT, IF NOT FORCE OF ARMS

Moscow.—Russia intends to support the Turks morally, and perhaps will give them munitions if they should be needed; but it is considered in Moscow as extremely unlikely that Russian troops will be sent to assist the Kemalists if they attempt to take Constantinople.

While preferring the Turks to the Allies as the holders of Constantinople, nevertheless it is understood the Soviet leaders have decided to take no steps which might bring them into a real war with Great Britain. The Russian staff might give advice, either from a distance or on the ground, but no troops will be sent, it is stated here.

Some of the Russian leaders declare Constantinople should be Russian, but next to that they prefer Constantinople Turkish, but strongly influenced from Moscow. Nevertheless, all Russia is tired of war and the leaders are pledged to the task of reconstruction.

Says States Should Help Great Britain

Hamilton Man at Cleveland Touches On Turkish Situation

Cleveland.—The United States should be prepared to cooperate with Great Britain in handling the Turkish situation that the peace of the world may be maintained, declared Sir John Gibson, of Hamilton, Ontario, at the 110th convocation of the Supreme Council, 33rd Degree, Ancient Accepted Scottish Rite Masonry for the Northern Masonic Jurisdiction of the United States.

Sir John touched upon the Turkish problem in conveying the fraternal greetings of Canadian Scottish Rite Masonry to the Council.

Had Adventurous Voyage

Captain and Wife Ninety-One Days On Pacific

Victoria, B.C.—After being tossed about by the giant waves on the Pacific for ninety-one days, Captain George W. A. Ward and his wife arrived here from the Orient with the Chinese Junk Amy. Practically one continuous storm buffeted the little ship and twice in typhoons she lost her rudder. Then while Captain Ward was guiding his craft through a dense fog off-side Victoria, a great black form loomed dead ahead. Captain Ward showed the tiller hard over and the steel hull of a Japanese steamer passed within four feet of the Amy's stern.

Veterans Ready to Enlist

Vancouver.—Veterans who served in the Near East during the Great War are volunteering here steadily for a possible contingent to Constantinople. Some of these have pointed out to Brig-Gen. Victor Odium that the hell in the Turkish advance is characteristic of the Turks' method of warfare. Local veterans of the Mesopotamian campaign expect further trouble, and an extension of the fighting to Mesopotamia, General Odium says.

Determined to Enter Thrace

Constantinople.—Hamid Bey, the Turkish representative here, informed the Associated Press correspondent that it was certain the Turkish army would declare war on the British if the British attempted to interfere with the movement of Turkish troops across the Straits to Thrace.

Shipping Strait Via Vancouver

Calgary.—More grain is being shipped from Alberta farms to the Pacific coast this year than last, the Dominion grain inspector here announced today. The grain is of the finest quality. Only No. 1 Hard and No. 1 Northern is accepted at this Pacific coast.

British Subjects Do Not Change Nationality Within The Empire

Not expect to obtain efficient farm labor from the Mother Country. There is employment at home for their efficient farm laborers than we have."

Major Belcher said the Prince of Wales was taking more than a perfunctory interest in his position as chairman of the exhibition general committee, and was attending all meetings and taking a lively interest in the proceedings. He instanced cable communications which he had had from His Royal Highness during his present tour.

Express Messenger Killed

Kenora, Ont.—Ralph Flowers, messenger in the employ of the Canadian National Express Company, was killed at Hunter while trying to board a moving train.

Elevator Destroyed by Fire

Saskatoon.—Fire destroyed Brook's elevator at Mervin with 7,000 bushels of grain, half of which was wheat. Two other elevators were saved by the efforts of the local fire fighters with buckets and chemicals. The property was fully insured and the companies that own it will start building again immediately.
